

# Anesthesia Technologist

## What do they do?

Anesthesia Technologists fall under the larger umbrella of Surgical Technologists. They prepare operating rooms and patients for surgery, assist with administration of anesthesia and may help monitor the patient during the procedure.

## Where do they work?

Anesthesia Technologists can work in hospitals, ambulatory surgery centers and dental offices. Some may choose to work with animals and assist with procedures done in a veterinary office.

## Pay:

According to the U.S. Bureau of Labor Statistics, the average yearly income for Anesthesia Technologists is \$49,710.

## Education:

A two-year associate's degree is required to become an Anesthesia Technologist.

### Anesthesia Technologist training in Wisconsin:

Milwaukee Area Technical College:

[www.matc.edu](http://www.matc.edu)

High School students interested in an education in anesthesia technology should take classes in health, chemistry, biology and math.

## Entry Level Opportunity:

Sterile Reprocessing Technician
